

White Eva Rubber Pads with Adhesive

“Raybone” is a large-scale Eva Rubber Pads manufacturer and supplier in China. As one of our standard products, White EVA Rubber Pads with Adhesive, has competitive price advantage and cover most of the European and American markets for glass industry. We have been specialized in Eva Rubber Pads for about 20 years. If you are interested in acting as our agents/distributors all over the world and hope for the mutual benefits

from the long-term cooperation. Please keep in touch with us anytime!

Product Description

“Raybone” China Quality White EVA Rubber Pads with Adhesive has been used for many glass factories as a standard packing material. Glass, windows, doors and mirrors are fragile. “Raybone” White EVA Rubber Pads with Adhesive are easy to be removed cleanly, yet adhered securely to architectural glass, auto glass, furniture glass, stone, windows & doors, during transporting, packing, storage and installation. Setting between the glass, the pads can absorb vibration, maintain position and prevent breakage.
